NOx Cost 2013_photos removed.docx

With the photos it was too large a document to send in Word. Here it is with photos removed. Based upon our discussion from yesterday, there will be changes to this relating to DJ3, LRS, and N1, and N2.

Best Regards,

Jim- Would you mind sending the NOx Cost report in Word format?

Aaron--

Attached are the draft NOx Cost report, RTC, and two spreadsheets. Please let us know if you have any immediate questions or comments--otherwise we look forward to discussing these drafts with you at our regular Wednesday call.
